

**After a very successful term we are excited to announce that Spectacular Science Club will continue to run this Autumn term 2024 at Wickham Common!**

Spectacular Science Club is an after school club which offers an hour of awesome fun in which children can learn more about the wonderful world of science. During each session children are truly engaged with different hands on science experiments including rockets, slime creations, circuits, learning about the planets, magnets, tie-dying, lava lamps, marble runs and lots, lots more!

Spectacular Science Club has been running since September 2018 and has proved to be a huge success. All teachers are fully trained and have enhanced DBS checks.

Sessions are held for one hour after school and we have spaces for the following clubs:

**Year 1-6 Thursday 12th September - 12th December 2024 (12 sessions)**

If you would like to secure your place for Autumn 2024 please visit our website which is now taking all bookings. Please ensure to book for the year your child will be in SEPTEMBER.
